

Social Distance/Divider Shields

SLOT MACHINES / BAR TOPS / TABLE GAMES / ETC'S / ATM-TRM UNITS / CAGE & COUNT ROOMS / OFFICES

T C Millwork provides creative solutions that address each of your property's specific operational needs.

Dividers and shields can have customized shapes, edge treatments, decals, etched patterns, or your own property logo.

There are no penetrations to the machines or bases, no holes to drill and a typical installation for a double-sided bank of eight slot machines can be accomplished in under ten minutes.

Here are some of the casinos where TC Millwork has fabricated and installed over 17,000 social distance divider products to date:

Hard Rock Atlantic City / Hard Rock Tampa / Hard Rock Cincinnati / Coconut Creek Casino / Seminole Casino Hollywood / Casino Immokalee / Casino Brighton
Resorts World NYC / Resorts World Catskills / Ocean Resorts AC / Maryland Live! Casino / MGM National Harbor / Ho Chunk North Wittenberg / Colonial Downs

- No dismantling or moving the machines required
- No drilling or fastening into the machines or base required
- Installation of dividers in less than 2 minutes per machine
